

Hybrid/Electric Vehicle Details Form

Please complete as much of this form as possible based on the vehicle log book and a visual inspection of the vehicle.

If there is any evidence the vehicle has been damaged, take additional care when assessing the vehicle, industrial batteries in hybrid/electric vehicles can contain significant voltage. Isolate the vehicle from other ELV stock and ensure it is stored on a concrete pad. Take notes and photos of damage and contact ELVES for information on next steps straight away.
